

M-TAC 1005

The M-TAC range are unique and innovative flying insect traps suitable for use in a wide variety of locations, particularly those in which aesthetics are an important consideration

M-TAC 1005

wall mounted flying insect trap

*“Irresistible attraction -
hygiene protection
through effective control”*

M-TAC 1005

M-TAC fly traps attract flying insects by emitting UV light at 350 nanometres, the optimum wavelength for insect attraction. Attracted into the M-TAC unit insects are entrapped on a glueboard discretely hidden within it. The glueboard is easily accessible and is quick and easy to change.

FEATURES

- 220Vac - 240Vac
